

COAL OPERATORS CONCEDE DEMANDS

**Break In Mine Owners
Ranks Which May
Settle Strike.**

ONE FIRM SURRENDERS

**Striking Miners are Elated
Over This Pleasing Turn
of their Affairs.**

UNIONS GROWING IN FORCE.

Hazleton, Pa., Sept. 25.—[Special Telegram]—The Markle company, operators at the Jeddito mines, today answered the grievances of the men by conceding to everything demanded except the price of powder and asked for arbitration on that point. The answer is highly satisfactory to the workmen and it may have a widespread influence on the strike.

Soldiers Remain in Camp
Shenandoah, Pa., Sept. 25.—[Special Telegram]—Quiet reigned in this and neighboring towns this morning. The soldiers remained in camp with the exception of the governor's troops detailed to make a trip through Girardville and Ashland.

Reports from all over this region show more miners continually joining the ranks of the strikers. The North Franklin colliery at Trevorton closed this morning. Only fifty men are reported at Cambridge colliery. All the others are idle. Upon this showing the miners feel jubilant.

Strikers Are Marching
Hazleton, Penn., Sept. 25.—[Special Telegram]—The marching of striking miners was resumed this morning in this district. A big crowd left McAdoo at 1 o'clock for Deringer and another crowd left for Tombsick.

Sheriff Harvey at Jeddito, started after the marchers to head them off. He went direct to the mines while the strikers took up a position on the road between the collieries and Shepton where they intercepted workmen. The strikers accomplished their purpose, the collieries are working but are short handed. The situation in other parts of the district quiet. One striker was arrested here.

All Quiet at Scranton.

Scranton, Pa., Sept. 25.—[Special Telegram]—The strike situation is unchanged this morning and the miners continue orderly. All interest is now centered in the fight in the Schuylkill Valley. The operators are somewhat alarmed by the appearance of bituminous coal, fearing that if the manufacturers get used to it they may cut out the hard coal.

STRIKERS FROM M'ADOO MARCH

Sheriff is in Pursuit—Clash of Arms May Be the Result

Hazleton, Pa., Sept. 25.—At 1:30 o'clock this morning a force of strikers, 300 strong, started from McAdoo for the Coxie Bros. & Co. collieries at Deringer, where a number of men had remained at work. Twenty minutes later Sheriff Harvey and a force of deputies were in pursuit.

The men from McAdoo were reinforced at every mining village they passed and their force probably numbered 1,000 before Deringer was reached at 6 a. m.

The plants in the Tombsick Valley are guarded. It was the most elaborately planned and closely guarded march the strikers have made thus far. The men from McAdoo went to the rendezvous, two miles south of Hazleton, in small squads. There they met the men from other mining districts.

Sheriff Harvey, when he left Hazleton at 1:30 o'clock, hoped to intercept the column near its starting point and induce the men to return home.

The sheriff's force is numerically too small to cope with the miners, if they make a determined stand in the Hazleton region. However, the men have thus far respected the command of the local authorities and may do so now.

In the Schuylkill region, where 2,200 troops are on duty, 20,000 men refused to go to work. There was an abundance of protection, but few to protect.

From Mahanoy City to Ashland only two collieries mined any coal. These were at Cambridge and Kelley's Run, where several hundred men reported for work at 7 a. m. The operators had everything they desired, except men. There were hundreds of coal cars to be filled and a small army to guard the men who filled them, but there were no men. President Mitchell stated in the evening that 90 per

cent of the anthracite miners were idle. The strike leaders feel now there is nothing to be done but to hold their men in line and they will win.

Collieries Abandoned.

Shamokin, Pa., Sept. 25.—Three hundred mules were taken from the Reliance and Alaska mines of the Philadelphia and Reading Coal and Iron company and sent to the Schuylkill county corral. The company gave notice to 3,500 men and boys employed at the operations previous to the strike that unless they returned to work by Saturday the collieries will be abandoned for a lengthy period. The strikers claim the order was given out with the view of scaring them into the mines before the termination of the strike. They say they will remain idle, regardless of the order.

Removed Servants' Teeth.

In Peru it was once the custom for domestic servants to have two of their upper front teeth extracted. Their absence indicated their servitude.

WILL CAUSE PANIC IF BRYAN WINS

General Alger's Prediction—Not a Shadow of Doubt, However, of McKinley's Election.

Duluth, Minn., Sept. 25.—General Russell A. Alger, in an interview here last night said that in his opinion the election of Bryan would be followed by a panic such as this country has never before witnessed. "I do not believe there is a shadow of a doubt of the re-election of President McKinley and of the election of a republican house of representatives."

PAVEMENT BREAKS; 9 INJURED

Crowd at Prohibition Meeting Thrown Into a Basement.

Brookings, S. D., Sept. 25.—By the breaking of a sidewalk John G. Woolley, prohibition candidate for president, his lieutenant, Volney B. Cushing of Maine, and seventy-five residents of Huron, S. D., were thrown twelve feet into a basement this afternoon. Seven women and two children were injured in the fall, six of the number seriously, and a score were more or less bruised. The politicians escaped with slight scratches.

The many women in the crowd were panic-stricken by the accident, and in the rush to liberate themselves from their temporary prison several were trampled upon. These were rescued with difficulty.

The injured are: Jennie Barrows, Redfield, S. D., face badly cut; Lavanche Barrows, 4 years old, Chicago, badly cut about face; Mrs. John R. Chickner, back bruised, serious internal injuries; Mrs. John Deyo, Huron, ankle fractured and bruised about the body, serious; Mrs. Harriet Jenkins, 84 years old, head bruised and left side injured, left knee broken, serious; Baby King, 3 years old, head cut and bruised, not serious; Florence Kelsor, student at Huron College, right knee and side injured, serious; Mrs. J. H. Little, Huron, left ankle crushed, serious; Mrs. Lillian Pulling, Huron, hurt internally, unconscious, serious.

When the work of rescue had been completed, the injured being taken to nearby homes, the meeting proceeded, both Woolley and Metcalf delivering their scheduled speeches.

FLOODS SWEEP VALLEYS.

Town of San Saba, Texas, Reported Partly Destroyed.

Austin, Tex., Sept. 25.—Word was received here from Liano saying that San Saba, forty miles north of there, with a population of about 1,000, was partly destroyed by the flood in the San Saba river. The news came by telephone, and it was said that all bridges on the San Saba were carried away. The San Saba is still rising.

No news could be had from San Saba the wires all being down. It is feared there has been great loss of life in the bottoms, as the rise was in the night and came without warning.

It is reported here that the town of Marble Falls has been washed away by the Colorado river, and that there is a fifty-foot rise at Kingsland. Efforts to reach Marble Falls are without avail. It is a small town of 800 people twenty-five miles above Austin, on the Colorado river, and is the terminus of a branch of the Austin and Northwestern road.

The Colorado river at 10 p. m. was rising rapidly and people in the lowlands have prepared to move out, having been warned by the police.

Telegrams were received here from Kingsland, 100 miles north of here, urging that the people along the valley of the Colorado river be warned that a terrific flood is coming down, and that the river is higher than ever before known in that stream.

Iowa Horse-Thief Gang.

For over a year one of the best organized gangs of horse thieves that ever operated in the middle west has been at work in the region of Iowa tributary to Cedar Rapids. More than 100 fine animals have been stolen in that time, besides buggies, harness, etc., and not a hoof, hub or buckle has been recovered.

KENOSHA GREET MR. LAFOLLETTE

**PRINCIPLES NOT MEN ISSUES
IN THIS CAMPAIGN.**

Notices the increased growth and prosperity of the Lake City—Gold Democrats Down that Way Will Nearly all Support McKinley—La Follette and Tillman May Debate.

Kenosha, Wis., Sept. 25.—Mr. La Follette arrived in this city a few minutes past 5 o'clock yesterday afternoon, accompanied by Mr. Zimmerman and Mr. Rogers of Madison and ex-Senator John J. Kempf and Charles Trump of Milwaukee. He was met at the station by representative republicans and taken to the Grant House. Here he exchanged greetings with a large number of leading citizens and was finally taken in charge by Mr. George A. Yule, whose guest he became for dinner. Mr. Yule is at the head of one of the manufacturing plants in the city and is one of the presidential electors on the republican ticket.

After a short informal reception in the hotel later in which Mr. La Follette met for the first time a large number of the foremost citizens of the place, he was taken to the opera house. Here a large audience greeted his appearance with a tremendous outburst of applause.

What Better Argument.

Mr. La Follette, in his opening words, paid a compliment to his opponent, Mr. Bohmrich, a Kenosha citizen. "I understand," said Mr. La Follette, "that my opponent has declared that this is to be a campaign for the discussion of principles rather than discussion of personalities. He would have been behind the times had he declared otherwise. The century closing gives the keynote for the future which is principles and not men. This is my first visit to your busy city and it is with the greatest interest I learn of the increased prosperity which you have had in the past few years. What better argument for the industry and spirit of progress manifested by your people can be made than the results which have been accomplished?"

Mr. La Follette then took up the pending issues and discussed them in detail.

La Follette to Meet Tillman

It has been suggested that the challenge issued by Senator Tillman to Mr. La Follette be taken up, and that a joint discussion be arranged to be held in the Exposition building in Milwaukee on some day in October after the exposition has closed.

Gold Democrats in Line

All or nearly all of the gold democrats in Kenosha county will support President McKinley. Those that were inclined to waver on account of "imperialism" have discovered what a sham that issue is, and that behind it free silver lurks as a menace to the industrial and commercial interests of the country.

TERRIFIC STORM DEVASTATES NOME

**Over Half a Million Dollars Worth of
Property is Destroyed—Five
Hundred People Homeless.**

Seattle, Sept. 25.—[Special Telegram]—Nome advises report that a terrific storm from the tenth to the thirteenth of this month destroyed tents and mining property worth half a million dollars. Andrew Ryan of Los Angeles was drowned, and it is feared several others were lost. Five hundred people are homeless. The government reservation was thrown open for the sufferers.

PRUNE INDUSTRY PROSPERS.

California Shippers Are Doing an Unprecedented Business.

San Jose, Cal., Sept. 25.—The California Cured Fruit association is highly satisfied with the situation as it stands today. Prunes are coming into their warehouses at the rate of about 1,500,000 pounds a day. While only about 3,500,000 pounds have been shipped, orders are now filed for three times that amount. President Bond says the record of sales is larger at this time than at a corresponding date in any previous year in the history of the prune industry. This is so in spite of the fact that the eastern jobbers consider the prices from a quarter to a half cent too high.

Railway Shops Burned Down.

Little Rock, Ark., Sept. 25.—[Special Telegram]—Fire early this morning destroyed the shops of the Iron Mountain Railway at Baring Cross. The loss is a quarter of a million dollars. Four hundred men are out of employment.

Remarried Wife of Long Ago.

There was rather an odd wedding over in Lansing, Mich., recently, when J. A. Greenough was married for the second time to the same woman. Twenty-five years ago, immediately after his first marriage, he started for the Black Hills to seek gold. After a time he ceased to write home and his wife, after securing a divorce, married E. A. Timmerman, who died three years ago. Last spring the widow learned that her first husband was still alive, correspondence ensued and now they have been joined in wedlock once more.

HOPE TO CAPTURE NEW YORK STATE

**BRYAN, JONES AND CROKER TO
MAKE A GREAT EFFORT.**

Nebraskan Will Make a Series of Speeches in the Empire State—Says He has Made No Promises of Cabinet or any Other Places—Hanna Reaches New York.

Chicago, Ill., Sept. 25.—It has been decided by the democratic national committee that Mr. Bryan will make a determined effort to capture the vote of New York state. This was settled yesterday at a conference at which were present, in addition to Mr. Bryan himself, Chairman Jones and Vice Chairman Stone of the National committee; Committee-men Campau of Michigan and O'Brien of Minnesota, and Congressman Shively of Indiana.

It was decided that Mr. Bryan should be in New York from Oct. 16 to 20 inclusive and return there on Oct. 27. Whether he is to wind up the campaign in that state was not finally settled, though practically agreed upon.

New York is Fighting Ground.

Ex Gov. Stone, who has been in charge of the New York headquarters, is the man responsible for the making of the fight in that state. He came here with the statement that he could not promise that the electoral vote of New York would be cast for Bryan, still the state was fighting ground, and with Croker's help in New York city there was a good chance of success. That Croker would do all he could to help Bryan, Gov. Stone brought ample assurance.

Mr. Bryan gave out the following statement in refutation of a report that positions in his cabinet, should he be elected, had already been promised.

No Cabinet Promises Made

"I have not given to anyone, either verbally or in writing, a promise of a cabinet position, and I shall not during the campaign make any such promise. I have not authorized and shall not authorize anyone, verbally or in writing, to promise any cabinet position or any position to anyone. If I am elected I shall be absolutely free to discharge all the duties of the office according to my judgment, as far as the platform goes and according to my own judgment in all matters not covered by the platform."

Apathy is Disappearing.

New York, Sept. 25.—Senator Hanna reached this city yesterday morning direct from Cleveland. He was welcomed to republican national headquarters by Cornelius N. Bliss, Senator Scott and Committeemen Manley and Gibbs. Mr. Hanna said he would remain in the city a week, possibly longer. Of the situation from his viewpoint Senator Hanna said: "I find that the much-talked-of apathy of republicans is being dissolved and that the dormant interest of the voter at large is being aroused to the necessity of working. The opening of the campaign throughout the entire country has had much to do with enlivening interest."

NAVY MANEUVERS BEGIN.

Great Interest Taken in Work of Submarine Boat, the Holland.

Newport, R. I., Sept. 25.—The navy maneuvers began this morning, when the red squadron left the harbor to commence the close blockade of Narragansett bay.

Capt. Mason, commandant of the torpedo station, said last night that the torpedo boat is the largest that ever acted together in the American service.

As there is a chance of ships being ordered away at any time, the maneuvers, which were intended to cover a week, will be finished in three days. It was learned last night that the blockaders have the greatest fear of the submarine boat Holland. They think they can run the forts, and they believe they can pick up with their very powerful searchlights the surface torpedo boats before they get into torpedoing distance, but they have no scheme of preventing the Holland getting underneath and "destroying" the war vessels. They hope, it is stated, to devise some method of detecting her wave or some other indication of her presence that may appear upon the surface of the water.

The Holland will act independently of the rest of the torpedo flotilla.

CHARGE THEFT OF GOLD ORE.

**Obnoxious Order to Search Workmen
Closes Colorado Mine.**

Victor, Colo., Sept. 25.—As a result of an obnoxious order, designed by the management to stop the theft of valuable ore, Stratton's Independence gold mine has been closed down. The miners announce that they will not go back while the order remains in force, and the superintendent says the order will not be revoked under any circumstances.

Six other large companies have issued a similar order, and signed an agreement with the Independence company to enforce it. The order provides that all workmen must change their clothes, both in going on and off the shift, and pass nude before watchmen from one dressing room to another. The superintendent of Stratton's Independence says the company has lost \$5,000 to \$15,000 per month through the peculations of workmen.

WILL FIGHT THE OSTEOPATHS

**Wisconsin Board of Medical Examiners
Plan Legal Proceedings**

Milwaukee, Sept. 25.—Assistant District Attorney Umbreit says he has been notified that the state board of medical examiners intends to proceed against the practitioners of osteopathy in this city, and that if successful here the board will begin proceedings in other parts of the state.

There are six practitioners here, and the Milwaukee College of Osteopathy, one of the largest institutes of the kind in the country, has just been opened with a long list of students. The osteopaths will carry the cases to the highest courts, and the fight promises to be a bitter one.

The proceedings will be based on two charges, the unlawful use of the title doctor and the practice of medicine without license from the state board. To this last charge the osteopaths reply that they do not fear regulation by state laws, and have in contemplation the introduction of a law that will recognize and regulate osteopathy, and thus relieve them from the damage done by "fake" osteopaths.

GREAT REBELLION LIKELY IN CHINA

**The Tryads and Boxers Are Massing
at Chung Chien and Are Threatening Canton.**

Hong Kong, Sept. 25.—[Special Cablegram]—The aspect in Kwang-Chung district is threatening. Frequent anti-christian riots have occurred. An army of twenty thousand Tryads, associated with boxers, have established a base at Chung Chien, threatening Canton and preparing for a rebellion.

Shanghai, Sept. 25.—[Special Cablegram]—It is rumored that the dowager empress has issued a secret edict commanding Li to retake Peking. Li remains at Tien Tsin.

Seth Low Offered a Place.

Washington, Sept. 25.—Special Telegram—The president shortly expects to appoint a commission of three prominent Americans to assist Conger in the conduct of negotiations. Seth Low of New York has been offered one place.

Earl Li at Tien Tsin.

Shanghai, Sept. 25.—[Special Cablegram]—Li telegraphed from Tien Tsin that the Chinese authorities there have had a dozen boxer leaders decapitated. He also announces that the Catholics at Chen Ting are safe. Chinese advances say that Tuan is summoning more troops and preparing to renew the war.

WORK OF THE STORM IN CENTRAL TEXAS

Austin, Texas, Sept. 25.—[Special Telegram]—The report that Marble Falls with eight hundred population was washed away is not true. The river is nineteen feet above the banks however. Apprehension is felt for LaGrange. Several lives are reported lost at Goldsmith. Every stream in northwest and central Texas continues to rise. The crop damage is large.

A BULL PUP NOW HER PET.

**New Fashion in Dogs Appears
Among Young Women.**

The dog who is having his day just now is the bull pup. Fashion has crowned him, and the pug, the poodle and all other kinds of dogs that have found favor with femininity in the past have given way to the homely, but eared pup with bowed legs and a bad eye. The formidable English dog, be of the heavy jowl and set expression of countenance, is the favorite, says the New York Sun. Many of the bull pups are owned by women.

One reason why the bulldog has found favor with women is that his admirable ugliness makes a foil for the prettiness and grace of his mistress. Beauty looks best with the beast in the background, and so well is this fact established that fashionable photographers are kept busy by the girl who wants to be pictured with her dog beside her. Beyond his mere ugliness the bulldog possesses a serious and solid personality. Freshly brushed and washed, with a large, crisp bow of violet or rose beneath his ear, he looks the expensive luxury he is. Blood shows in every curve of his forelegs.

The English dog has practically displaced the French in the favor of the doggy woman. The fact is that the French pup is by nature just the little, consequential, frivolous and unattractive creature he looks. He has none of the large instincts of his British relation. His character really calls for the whip which is so prominent in his owner's outfit during a walk on the avenue. Besides this, he is subject to various physical infirmities, a tendency to catch cold and an invalid's querulousness of manner that does not add to his personal attractions.

The English pup in spite of his face is very lovable, intensely affectionate and big hearted. As Mr. Robert Mahew, one of the best dog judges, declares: "The bulldog is incapable of a mean thought. There are no half measures about him. He loves from the tip of his blunt nose to the extreme points of his toe nails. He hates in the same unreserved fashion."

SUDDEN DEATH OF GEN. J. M. PALMER

**Former Governor and U. S.
Senator of the State
of Illinois.**

HIS CIVIL WAR RECORD

**One of the Great Generals of
the Union Army During
that Contest.**

RAN FOR PRESIDENT IN 1896

Springfield, Ill., Sept. 25.—[Special Telegram]—General John M. Palmer, a former governor of Illinois, United States senator and one of the great generals of the union army during the civil war, died at his home here at seven o'clock this morning.

The general was about yesterday as usual. Last night he went down town and upon returning complained of a

SENATOR JOHN M. PALMER.

pain in the chest about the heart. A physician was called in several times during the night.

At four o'clock this morning he said he was all right and felt better. Soon after he went asleep and at seven o'clock while his wife was away for a doctor, he passed calmly away.

John McCauley Palmer was born at Eagle Creek, Ky., Sept. 13, 1817. He was admitted to the bar in 1839. He served through the civil war attaining the rank of major general of volunteers in 1862, and commanding a corps under Gen. W. T. Sherman in 1864. He was republican governor of Illinois 1869-1873. He was elected to the United States senate as a democrat in 1890. He ran for president on the gold democratic ticket in 1896.

DENVER TO CHEER ROOSEVELT TONIGHT

Chesynne, Sept. 25.—[Special Telegram]—Gov. Roosevelt arose early and breakfasted. He went horseback riding before the Denver reception committee climbed out of bed. The party left at nine thirty in Wolcott's private car. At Greeley the boom special from Denver met the Governor. Tonight Denver expects to give a big parade and rally.

Bryan Reaches Lincoln

Lincoln, Neb., Sept. 25.—[Special Telegram]—Bryan arrived home at 10:15, accompanied by Hamilton Lewis, who may go on the trip with Bryan to the northwest. Towne will be here on October 4.

MR. WOOLLEY WILL SPEAK SATURDAY

**The Prohibition Special Train Will
Stop in Janesville from 1:30 to
2 O'clock.**

On next Saturday afternoon from 1:30 to 2 o'clock John G. Woolley and Mr. Metcalf the prohibition candidates for president and vice president, will be in this city and will speak from the platform of the train in which they are traveling.

Messrs Woolley and Metcalf, together with a party of prohibitionists are traveling through the northwest, making campaign speeches. Local prohibitionists are making preparations to meet them with a big crowd.

If fresh fruit is used, it must be steamed and sweetened to taste. Add one cupful of cold water to the gelatin and stir over hot water until dissolved. Whip one pint of fresh cream. Mix the gelatin and plums together and turn into a thin china dish. Place the dish in a pan of cracked ice and stir continually until it begins to thicken; then add the whipped cream. When thoroughly mixed, turn into a mold to harden. Place in the center of a low, flat dish, heap round with whipped cream, and it is ready to serve.

Guards Take Komatiport.

London, Sept. 25.—Lord Roberts reports from Pretoria that the guards, under Pole-Carew, occupied Komatiport. The bridge was found intact. Much rolling stock, locomotives and truckloads of "long tom" ammunition were captured. Only a few rifle shots were fired. Paget has captured Erasmus' camp, 3,000 cattle, 8,000 sheep and twenty-three prisoners. Methuen has also made another big haul of stock. Lord Roberts also reports that the few Boer troops remaining in the eastern Transvaal are completely "out of hand," and says they are mostly burghers, the foreign mercenaries having gone to Lorenzo Marques, owing to the Portuguese government promising to maintain them while there and give them passage to their respective countries.

Mining Coal in Spain.

Madrid, Sept. 25.—The advance in the price of coal has given fresh impetus to the Spanish mines, that were considerably developed during the war with America. The output of coal from 1899 was 2,872,000 tons of lignite and 70,000 tons of coke. The total production for the first eight months of 1900 shows an increase of 30 per cent. The mines are worked entirely by native capital, and the lack of proper means of transportation alone hinders the development of the vast coal beds of the nine provinces.

Detectives Catch a Clerk.

Chicago, Sept. 25.—Alexander Moffat, 5541 Throop street, an order clerk for the International Packing Company, was arrested in Hebron, Ind., by detectives of the Mooney & Boland agency for the alleged embezzlement of \$1,500 from his employers. Moffat, who left Chicago about ten days ago, is said to have robbed systematically the packing company for some time by intercepting C. O. D. orders and pocketing the proceeds.

Origin of the Chinese Queue.

The custom of Chinamen wearing pigtail is not ancient, considering the period that China has existed as a nation. It dates from 1627, when the Manchus, who then commenced the contest of the Celestial Empire, enforced this fashion of doing the hair as a sign of degradation. The average queue is three feet long, and reasoning that the adult Chinamen number 200,000,000, we get a united pigtail measuring 113,686 miles long, sufficient to go four and a half times round the earth!—Golden Penny.

A LITTLE BIG WASTE.

DISTINGUISH between economy and wisdom. Sitting at home to save shoe-leather is economy, but it is scarcely wisdom. In the same way, doing without Ivory Soap is economy but it isn't wise; your risks are greater than all possible saving. Every cheap soap contains free alkali. Now, free alkali will eat its way through the new oil cloth on the kitchen floor. Imagine then what it will do in a single Monday's washing! Is such economy wise?

Thousands of Men Go to Work.

Pittsburg, Pa., Sept. 26.—Twenty thousand men in Pittsburg and the western mill district went to work after almost four months' idleness, and fully as many more will go on tomorrow or Wednesday. All the American Steel Hoop plants and the mills of the Republic Iron company have started. The rush to start is caused by a scarcity of muck bar and bar iron.

Fire Wipes Out a Village.

Omer, Mich., Sept. 25.—The business portion of this village was practically destroyed by fire. The hotel, two drug stores, a saloon, furniture, hardware and jewelry stores, a photograph gallery, the postoffice and eight residences were burned. Losses about \$50,000, with light insurance. The town has no fire protection.

Brewery Wagon as a Bumper.

New York, Sept. 25.—In a crash between two electric cars and a brewery wagon Morris Sternfels was killed and twelve other passengers were seriously injured. Both cars were running rapidly and caught the wagon between them. Sternfels was hurled through a window.

Joint Expedition to the Pole.

London, Sept. 25.—Dr. Nansen and the duke of the Abruzzi, according to a dispatch to the Daily Express from Christiania, have agreed to undertake a joint expedition into north pole regions.

MR. BRYAN'S WARNING

"If there is anyone who believes that the gold standard is a good thing, or that it must be maintained, I warn him not to cast his vote for me because I promise him it will not be maintained in this country longer than I am able to get rid of it."—Hon. William Jennings Bryan, Knoxville, Tenn., Sept. 16, 1896.

CHANCE FOR A REFORMED CHINA.

Out of China's present troubles there is a chance for her regeneration and the United States is in an excellent position, says the St. Louis Globe-Democrat, according to the latest advice to bring that reform about. The immediate outlook for China, it is scarcely necessary to say, is dark. The outrages of the Boxers at last accounts, were on the increase. Many of the foreign legations in Peking have been destroyed, and the German minister murdered. Nearly all the great nations represented in Chinese waters are acting in harmony, but not only is the Chinese government, as indicated by the actions of the Empress Dowager, not making any attempt to curb the reactionaries, but it seems to be giving them moral and physical aid. There is evidence, in fact, that the Empress intends to resist the foreign troops. If anything like this takes place and a war begins between the United States and the European powers on the one side and the Chinese government on the other, a serious condition will result. Then the world's diplomats will have a more delicate problem on their hands than they have encountered at any time since the congress of Vienna met in 1814, after the banishment of Bonaparte to Elba, to readjust the map of Europe which that conqueror had disturbed.

There is apparently a desire on the part of some of the powers to remove the empress and to restore the emperor whom she deposed. The reason he was deposed was that he favored foreign influence in the empire, especially that of the United States and England. The empress has all along been hostile to Western ideas, particularly those represented by the two Anglo-Saxon nations. It has been intimated that Russia instigated the deposition of the emperor. Accord-

ing to reports emanating from Berlin and London, Russian influence has been behind the empress in the reactionary policy which first effaced the late ruler, and which has now manifested itself in the anti foreign outrages of the Boxers. Some allowance, of course, has to be made for the British prejudices against Russia, but all the reports of this tenor have not come from London. Vienna and Berlin have furnished stories of the same general purport.

But the war, if it comes, will be sure to bring changes to China which will be permanent. Civilization demands that the new China shall be an improved China, and the United States can safely and consistently take the lead in accomplishing the reform. The United States' natural allies in this work would be England, Germany and Japan, but England's hands, to a considerable extent, are still tied in South Africa, while the course of Germany and Japan will be more or less hampered by the jealousies and antipathies of the other nations. America is the one country represented in the Chinese complication which can take the lead in the work of suppressing the reactionaries and in effacing their accomplices without arousing the resentment of the rest of the nations. It is well known to the world that the United States seeks no territory in China, and that its sole desire is to protect its citizens in that country and to secure equal privileges for all foreigners in the trade and enterprise of the empire. The determination of the authorities at Washington to send more warships to Chicago waters, and to transport troops to the Chinese mainland if necessary, indicates that the administration is fully impressed with the country's duty and opportunity, though it is equally resolved to avoid all entangling alliances with other nations in carrying out its policy.

OUT OF THE BUREAU DRAWER.

Following the teachings of Bryan and Edward Atkinson, the Filipinos have taken to counterfeiting the silver dollar. Is this not carrying the free coinage idea to an absurd extent?

With wheat, corn and cotton prices at the top notch, it is hard to convince the farmers that prosperity is a myth.

Kansas cannot find cars enough to carry her crops. Thus is opened the golden opportunity to kick because of too much prosperity.

The antics of the populists and the democrats in some western states make one think of the two snakes that tried to swallow each other.

Speaking of "paramount" issues and people, what has become of "Paramount" James H. Blount, whom Grover Cleveland appointed as "my Paramount Commissioner" to haul down the American flag in Hawaii seven years ago? That flag was restored in Hawaii by a republican president.

The democrats now regard Ohio as a doubtful state. They might go even farther and regard it as very doubtful—as far as they are concerned.

Chairman Jones says that New York is to be redeemed. Wasn't that done at the last presidential election?

Emperor Frederick's Letters.
Among the letters advertised in a recent catalogue of a Berlin bookseller are several written by Emperor Friedrich during the ninety-nine days of his reign. One of them gives expression to his aversions to courtly ceremonies, and refers to various reasons why he should not be expected to attend the receptions given by ambassadors.

COMMON PROPERTY

Public Praise is Public Property—Janesville People May Profit By Local Experience.

Grateful people will talk. Tell their experience for the public good. Janesville citizens praise Doan's Kidney Pills. Kidney sufferers appreciate this. They find relief for every kidney ill. Read what this citizen says:

Mr. E. T. Fish, of 335 Racine St. proprietor of the Fish Line, says: "When I was twenty years of age I fell, injured my back, and ever since that I was troubled more or less with a dull, aching pain across the loins. It never laid me up but it was often painful and annoying. Of late years I have gone to a physician every six months and had myself thoroughly examined under the impression that there might be something wrong with my kidneys. The diagnosis always resulting in the physician claiming these organs were sound, but as the pains existed when I happened to notice in our Janesville papers that Doan's Kidney Pills were guaranteed to cure just such troubles, I procured a box at the People's Drug Co.'s store, and took them. Doan's Kidney Pills are a good preparation. My back has not ached since I used them. I have heard others speak very complimentary of them and if I did not know their merit and required such a medicine I would consider it a favor if some one suggested their use to me. For this reason I endorse them."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no other.

French Doctors Abandon Tobacco.

It is said that many French medical men are abandoning the use of tobacco, owing largely to the government monopoly of that commodity. According to the physicians the cigars of the "Regie" (those made at the government factories) are so uniformly bad and the tax on all other brands is so prohibitive that the only sensible thing to do is not to smoke at all.

England's Administrations.

The present conservative government of Great Britain celebrated its fifth birthday on July 2. England has had a total of twenty-eight administrations in this century, eight of which were longer than the present one. The longest was that of Lord Liverpool, which lasted from 1812 to 1827, a period of fourteen years and 319 days.

Crusade Against Prairie Dogs.

A crusade against prairie dogs is to be made in northwestern Kansas. Strychnine and cyanide of potassium are mixed with wheat and put around the hole of the prairie dog. When this is done a couple of times the prairie dog is no more. In the prairie dog neighborhood there are an average of 150 holes on every 100 acres of land. A hundred and fifty prairie dog families will play havoc with a crop.

DINING ROOM GIRL USED AS A SHIELD

DESPERADO ESCAPES FROM A DEPUTY AS MADISON.

Under Sheriff Hearst the Victim of a Plot—Lost a Prisoner Who Had the Nerve to Forcibly Hold a Girl Up to Prevent Shots From Being Fired at Him.

Frank Paige, one of the robbers arrested at Evansville on Saturday last for robbing a man on a freight train succeeded in getting away from Under Sheriff Joseph Hearst of Columbia county, who was taking them to Portage.

Hearst came to Janesville yesterday morning and took the two prisoners from the Rock county jail and started with them for Portage. When deputy Sam Brown turned the men over to Hearst at the jail they were securely handcuffed together so they could not part.

When Hearst reached Madison he took the two men to Burke's hotel in West Madison for dinner. When they started to eat they requested Hearst to remove the handcuffs so they could eat comfortably. Hearst thought that they were safe enough in the dining room so foolishly removed the bracelets. Nothing occurred until they were almost through dinner and the dining room girl was standing directly behind Paige, who jumped from his chair, grabbed the girl and keeping her in front of him as a shield commenced to back towards the door.

Hearst jumped up and grabbed Paige's companion with one hand and with the other ordered Paige to halt or he would shoot. Paige held the girl in front of him so Hearst could not shoot, and continued to back towards the door which he finally reached and was soon out of the building and away.

Hearst did not dare to let go of the other prisoner to go after Paige as he had no one to help him and he would have lost both of them.

The escape was neatly planned and was the work of an expert. Paige is no ordinary tramp and is supposed to be the ring leader of an expert gang of crooks.

Hearst said he was almost certain that Paige was a member of the crew that shot and killed Policemen Gates of La Crosse on the night of September 7. He had evidently been mixed up with other things besides the highway robberies as he was extremely anxious to keep out of the hands of the authorities and was willing to take desperate chances to get away from the officers before they got him to Portage.

Marshal Cal Broughton was in town yesterday morning with the two witnesses against Paige and his partner but missed Hearst who had started for Madison. Broughton left on the 11:20 on the C. & N. W. hoping to overtake Hearst at Madison and turn the two witnesses over to him. He must have reached Madison soon after Hearst had lost his prisoner.

MRS. R. M. BENSON DIED AT HER HOME

One of the Early Settlers of Rock County—Funeral Friday Afternoon at Clinton—Other Details.

Mrs. R. M. Benson an early settler of Rock county died at her home in Clinton last evening at 8 o'clock at the age of sixty-nine years after a two weeks illness. Mrs. Benson was a woman well known in the county where she has resided for many years and had numerous friends who will mourn her loss. She was the mother of Mrs. Selkirk of this city. She leaves surviving her to mourn her loss a husband and two sons and two daughters. The funeral will be held Friday afternoon from her home in Clinton. The interment will be in the Clinton cemetery.

Funeral of D. L. Dowse

The body of David Lane Dowse was brought overland from Spring Prairie, Walworth county, yesterday and interred in Oak Hill cemetery. He was formerly a resident of Janesville and resided here for five years. David Lane Dowse was born in Lincolnshire, Eng., Aug. 21, 1831. At the age of 10 years he came with his parents to this country and settled in Janesville where he lived until fifteen years ago when he accepted a position with the United States Express company at Chicago where he remained until June, 1900, at which time he had to resign on account of ill health. Thinking a change of climate would do him good he went to Colorado, but growing rapidly worse returned to the home of his brother, Charles Dowse, in Spring Prairie, Walworth county, two weeks ago where he was tenderly cared for until his death, Saturday afternoon, the 22nd. He was 39 years old at the time of his death.

ERIC BIRKLUND HAS DISAPPEARED

Well Known Dairyman of Mineral Point Avenue Mysteriously Missing—No Reason Is Known.

Eric Birklund, a milk dealer residing on Mineral Point avenue is mysteriously missing and no trace of his whereabouts can be found. His wife is very much worried over his disappearance and is anxiously awaiting some news from him.

Birklund is a hard working man and has been very successful in conducting his dairy business. He worked early and late and laid up considerable money.

On Monday, the 17th, he took what money he had, supposed to be in the neighborhood of two hundred dollars and said he was going down town. He left home and came down town and went to see one of the banks and drew out some money he had on deposit and then disappeared.

He did not come home and after waiting for him and making a search of the town his wife and his brother-in-law left on Saturday night for Minneapolis where he has a brother residing to see if he had gone up there. They could find no trace of him in Minneapolis and returned home last night.

Birklund had never said anything about leaving home. He had a good business and had saved some money. He had some slight domestic troubles but they did not amount to enough to cause him to leave home. He left all his cows, wagons and fixtures and did not try to dispose of them before he left but had considerable ready money.

SMALL BOY FALLS FROM A BUILDING

Young Lad Named Murphy Had a Narrow Escape While Climbing Over a Warehouse on Academy St.

A young lad named Murphy residing at 75 Racine street, had a close call yesterday morning while playing around the large warehouse at the corner of Academy and West Bluff streets which is being erected by Sylvester & Son.

Ladders have been placed in the elevator shaft reaching from one floor to the next above up to the third floor. Young Murphy was climbing up these ladders and had reached the top floor when he lost his hold on the ladder and fell three stories, striking against the ladder at the first floor and glancing off. He was stunned at first by the fall but soon set up a terrible howl.

People at the Northwestern station ran over to the warehouse attracted by his cries and picked him up. It was found after a careful examination that no bones were broken and that the only injury the boy had sustained besides a bad shaking up was a cut on the side of the jaw. He grabbed up his paper bag and ran off down the street with the rest of the boys that were playing with him.

The only thing that saved his life or at least having several broken bones was his striking against the lower ladder which was on a slant and glancing off breaking the force of the fall.

NINE KILLED BY A CYCLONE.

Deadly Storm at Morristown, Minn.

EIGHT KILLED IN A SALOON.

Funnel-Shaped Cloud First Seen Four Miles from Morristown, Where the Wind Killed a Farm Hand Named Peterson—Waite Among the Dead.

Faribault, Minn., Sept. 25.—The village of Morristown, twelve miles west of here, was visited by a cyclone shortly after 5 o'clock Monday afternoon. Besides destroying several buildings, eight persons were killed. The storm came without warning from a southwesterly direction, passing over to the northeast. The length of its path in the village was less than half a mile, and owing to its peculiar action the distress and damage resulting were not as great as they might have been. The storm made jumps of one block, but whenever it came down everything was crumpled by the power of the wind. The barn belonging to Dr. Dargabel on the outskirts of the village was the first structure destroyed. The barn was picked up and carried a block, leaving the floor uninjured with two horses standing on it. The building was crushed.

Eight Killed in a Saloon. From here the storm jumped a block to the saloon of Paul Gatzke. Before reaching the Gatzke saloon there is a two-story building which was left untouched. All the killed and injured in Morristown were in the saloon, having hurriedly taken refuge there when the storm was seen on the outskirts of the village. There were sixteen in the structure at the time the storm struck. The building was raised from its foundation and crushed like an eggshell. Before the building fell three men managed to escape, but the others are found in the lists of dead and injured. The killed are: Jake Miller, Jake Weaver, Jr., Frank Pitman of Waterville, Otto Gatzke, John Rohrer, Jr., Elmer Brooks, H. S. Wait, Frank Wilder.

The injured are: Paul Gatzke, Porter White, Lewis Pittman, Jr. After leaving the saloon the storm crossed the street and destroyed the barn of J. P. Temple, and took the roof from the barn of W. M. Bigoli. It then crossed the Cannon river and destroyed the barn of Adam Snyder, killing several hogs. The storm then passed off to the northwest and did no further damage.

One Other Fatality.

The first fatality occurred, however, before the village was reached. The storm was first discovered by a farmer who lives four miles from Morristown. He saw the funnel-shaped cloud, and says that it was bobbing up and down on its way to the village, and made four descents in the four miles. The farm of John Olson, a farmer who resides two miles from Morristown, is so far as can be learned, the first place where any damage was done. Olson's hired man, Peterson, was killed, but the particulars could not be learned in Morristown. The citizens of Morristown were prompt in caring for the dead and injured. Immediately after the storm had passed willing hands were engaged in removing the ruins of the saloon. Morristown has two physicians, and others soon arrived from Faribault and Waterville. Their services were not required, as the injured had already been cared for. Henry S. Waite, one of the killed, was a farmer residing three miles east of Morristown, and was a Republican candidate for representative. He was 40 years of age, and had resided here all his life.

Third Disaster in a Year.

This is the third disaster that has visited Morristown this year. In February the entire business district was destroyed by fire, and among the structures rebuilt was the saloon of Gatzke. The village was visited by another fire in May, which did a damage amounting to \$10,000.

Named in an Enlistment's Honor. New York, Sept. 25.—Freshly painted green, in honor of its being the only vessel in the United States navy that is named after an Irishman, the O'Brien, United States torpedo boat, was launched at the Nixon shipyard, Elizabeth, N. J. The boat was christened by Miss Myra Lincoln O'Brien, a direct descendant of Joseph O'Brien, one of the five brothers who captured the British sloop of war Margaretta off Machias, Me., May 11, 1775.

Transport Runs Aground. Santiago, Sept. 25.—The United States transport Rawlin, from New York Sept. 12, by way of San Juan Sept. 18, while entering Santiago harbor yesterday ran her bow on a sandbank near El Morro, close to the wreck of the Reina Mercedes, where she remained three hours. She was ultimately pulled off by a United States tug, and it was found that she had suffered no injury.

Wholesale Man Found Dead. San Francisco, Cal., Sept. 25.—Geo. C. Tietjen, a commercial traveler, representing the Western Implement company of Port Washington, Wis., was found dead in his room at the Grand hotel. He was last seen on Friday, when he complained of heart trouble.

Immense Cargo of Grain. Chicago, Sept. 25.—The steamer Andrew Carnegie is today loading the largest cargo of grain ever taken out of the Chicago river. It is 230,000 bushels of corn and is being taken on at the Illinois Central elevators. The Carnegie is 423 feet long and 48 feet beam.

Horses for the Philippines. Seattle, Wash., Sept. 25.—The United States transport Port Albert has sailed for the Philippines with 509 cavalry horses and a cargo of forage and commissary supplies.

Restful Week at Canton. Canton, O., Sept. 25.—The President is having a most quiet and restful week here, with ideal fall weather, mild temperature and bright sunlight. There were no callers of prominence during the morning, but as usual a number of people called to shake hands. No advance notice has been given of important visitors, either official or political, within the next few days, and while still of great volume the official demands upon the president's time are less exacting now than they have been for some time.

Counted Convicts in Census. Joliet, Ill., Sept. 25.—The citizens of Joliet were disappointed to learn that the new census figures included 1,637 prisoners in the penitentiary, although that institution is not within the city limits. This cuts Joliet's population from 30,720 to 29,243. The prison figures appear in the total for the 6th ward, which is a mile from the prison. An investigation is under way.

Galveston Is Again Busy. Galveston, Texas, Sept. 25.—The wharf front again shows signs of activity and plenty of freight is arriving. Half a dozen steamships will be loaded this week, though a great trouble is the scarcity of labor. Trains are arriving on time and twice as many people are coming as are leaving.

STATE TROOPS AWE THE COAL STRIKERS

Battalion of Militia Marched Into McAdoo—Extreme Hostility to the Soldiers—Urged to Shoot.

Hazleton, Pa., Sept. 25.—A battalion of the Eighth regiment, composed of companies D, F and G, arrived at McAdoo, the nearest point in Schuylkill county to the city of Hazleton, at 5 o'clock this morning. Owing to the early hour there were not over a dozen persons at the little railroad station on the outskirts of the town to see the infantry. The troops left the camp at Shenandoah at 4 o'clock, and did not bring their camp equipment with them, because they expect to return to Shenandoah tonight if nothing transpires to require their further presence near Hazleton.

A Demonstration March.

Lieut.-Col. Hutchinson, who is in command of the battalion, said he was ordered there to make a demonstration by marching his men through McAdoo and the surrounding towns. Each man carried twenty rounds of ammunition. As soon as the battalion had left the cars Col. Hutchinson hired a team and made an inspection of the surrounding country. He returned to the railroad station at 8:30 a. m., and immediately gave the order to march. The route taken was down the Tamaqua road, through McAdoo and then west to Honeybrook. Here a wide detour was made, which brought the battalion to Audenreid, Luzerne county, and then they marched back through McAdoo to the point from which they had started.

Hostility to Troops.

The troops were received by the inhabitants of the various towns with evidence of enmity and dislike. Not a cheer was given them at any place, but many a jeer was sent after them as they passed groups of people on the streets. The women seemed to be more annoyed at the presence of the soldiers than the men.

Urges Strikers to Shoot.

One woman, after the troops had passed, shouted to a group of men: "If you don't shoot some of those fellows you are no good!"

Probably the most incensed person in McAdoo over the arrival of the militia was Edward J. McGeehan, a blacksmith, who is the Burgess of the town. He stated that the action of Gen. Gobin in sending soldiers there was an outrage and a reflection on the city of McAdoo. He said his people were law abiding and pointed to the fact that the town was so peaceable that not a policeman was required at any time except on pay days.

"I shall not be responsible for any overt act committed by any person in this town while troops are here," he said.

Two Collieries Working.

The entire Hazleton region was reported extremely quiet this morning. The M. S. Kemmerer mines at Sandy Run, a small operation, are tied up for the first time this morning, and the Eckley colliery of G. B. Markle & Co. is working with about the same force as on Saturday, notwithstanding the strong efforts made by strikers to keep all the men from going into the mine. The Lattimer mines were reported to be tied up, but the mine officials there say their colliery is working as usual with only fifty short out of 1,100.

Today was expected to witness either a big break among the strikers or the going out of a large additional number of mine workers, but neither happened. Reports were received here from most of the mining towns that there were no big gains or losses on either side.

Every Mine Closed.

Shenandoah, Pa., Sept. 25.—The promise of protection by the state troops failed to encourage the mine workers of this region who expressed a desire to continue at work and the strike in this region is today more extensive than at any time since the strike was inaugurated. It is stated that not a colliery in the vicinity of this city resumed operations this morning, owing to the failure of the employees to report for duty.

Messages received from various towns in the region announced that every mine from Mahanoy City to Ashland, including the latter place, is closed.

Strange Murder of a Woman.

Hamilton, Ont., Sept. 25.—Miss Griffin of Dundas, was shot and killed last night while out driving with George Pearson of Hamilton. According to Pearson's story they were passed by a rig from which two shots were fired. One of these struck Miss Griffin in the head. He carried her into a farmhouse where she died.

Chicago Pupils Give \$4,320.48. Chicago, Sept. 25.—Pupils in the public schools of Chicago yesterday contributed a total fund of \$4,320.48 for the aid of the Galveston flood sufferers. The fund is not yet complete.

Geographical Superlatives.

Asia still claims the highest mountain and the deepest valley, the basin of the Dead Sea being several hundred feet below the level of the Mediterranean, and Africa maintains her unenviable prestige in the matter of deserts, but America can boast the longest mountain range, the grandest caverns and the greatest waterfall, the longest river, three broad rivers and the largest sweetwater lakes.

Cleanest in America.

The Lackawanna Railroad is the cleanest railroad in America. Even though it cared little for the comfort of its passengers, which it does, it probably would burn hard coal, for the reason that it owns the most extensive anthracite coal mines in Pennsylvania, and it is cheaper for it to burn hard coal, which makes no smoke, than soft. At any rate, there is no smoke from its locomotives. It is built for the most part through the mountains where rock is the material easiest of access, and its road-bed for that reason is rock-ballasted. There is therefore, no dust. These two things are of unusual interest to the traveler by the line, for the reason that on no other road in the United States is there stronger incentive to keep one's eyes upon the passing scene. It is said of this line truthfully that every mile is picturesque. It traverses the agricultural region of Western New York, the valley region of Central New York, the mountain region of Pennsylvania and New Jersey, and every mile offers a view that is beautiful, interesting and entrancing. In point of comfort its passengers are particularly fortunate, for, in addition to there being no smoke or dust, the cars are roomy and scrupulously clean. Sleeping cars, parlor cars and dining cars offer all the conveniences and comforts of modern travel.

Gentlemen:—My mamma has been a great coffee drinker and has found it very injurious. Having used several packages of your GRAIN-O, she now takes the place of coffee, she finds it much better for herself and for us children to drink. She has given up coffee drinking entirely. We use a package of Grain-O every week. I am ten years old.
